The Cürv Smart App

One App, Every Device.

Make your life simple and control all of your Cürv Smart Devices from one single app.

Don't waste your time switching between multiple apps to control your smart home. Cürv created its one app, with you in mind.

With the options to create a family from multiple accounts, group products into rooms or areas, generate scenarios or automations, Cürv have you covered for an ultimate smart home experience.

Upgrade to Simplicity.

Upgrade to
Simplicity

Amazon & Google Control

Voice Controlled Products

Another way that we've made our devices even easier to control is by implementing the option to use both Amazon Alexa and Google Assistant.

Use voice commands to issue instructions to your Cürv Smart devices, turn the lights on, view who is at the door, change the bulb colour, activate the heating...

The Possibilities are Endless...

Customer Support

We Pride Ourselves On Top Customer Support

We've spent a long time developing our customer and product support to make using our products, effortless.

Online Help Center

This is where the magic lies, a full set of custom-made step by step, easy to follow video tutorials.

Each video takes an in-depth look explaining exactly how to use the product, from initial set up, to individual product functions and troubleshooting.

Visit out help center website

Infrared Heating
Heating Your Home In Style

Our UK-designed infrared heating units come in three different forms: A stylish and customisable flat panel, which sits inoffensively on any wall, a mirror heater, which acts as the perfect alternative to expensive underfloor heating and glass a towel rail, which keeps both your towels and your bathroom at a comfortable temperature. Each heater is supplied with a free Wireless Room Thermostat and a Smart Phone App, which allows you to take control and monitor your heating costs from anywhere in the world.
